

“ We give each of our customers their own EBSuite project management account. They are now **up-to-date in real time** to their project's status.

”
– DataVision, Inc.

Contact Management • CRM • Sales Automation • Customer Support - Help Desk • Project Management • ERP Integration • Time - Invoice Billing

Business Problem: Project Management

DataVision is a marketing analytic consulting firm. Each custom analytic data modeling project is unique for each customer. In order to grow we needed to bill more client hours on project work and less time on client management. We chose EBSuite since it gave us the control to let each customer logon and view their project's progress. This had an additional benefit that our clients realized the magnitude of tasks involved in each project.

Alternatives Investigated:

Microsoft Project, Track-It, AceProject, Basecamp

Reasons for Selecting EBSuite:

EBSuite's selection of benefits:

- Up-to-date project progress
- Easy to Use
- Web based solution
